

“I feel like I have bionic eyes now.”

“I can’t tell you how wonderful my eyes are now, after cataract surgery.

“Before surgery I quit driving at night, and I couldn’t see to sew, read or even see my computer screen or TV that well. After my multi-focal lens implant surgery I can see everything I need but without glasses. Now I even see the pine needles on the trees in my yard and single rain drops.

“I feel like I have bionic eyes now. Thank you so much.”

— Beverly Manske, Roseburg
